Activities Planned to Honor Martin Luther King Jr. Legacy

Several activities are planned to honor the legacy of Martin Luther King Jr. The Ecumenical Service of Love and Peace kicks off the activities at 3 p.m., Jan. 20, at the First United Methodist Church. The service will include presentations by David Hartsfield, Sharon Squires, assistant professor of education, the Rev. Carrol Davenport, Dr. Henry Wisdom and Ben Stewart, sophomore music general concentration from University City, Mo.

Unity VII, a celebration through dance, song and words, will take place at 3:30 p.m., Jan. 21, in Baldwin Auditorium.

An original 20-minute performance, created and directed by Becky Becker, assistant professor of theater, and Rachael Carrico, MAE graduate student from Waterloo, Ill., titled “Collected Lives: Memory in Motion” will be the featured event at the second annual Unity Luncheon at 11:45 a.m., Jan. 22, in the SUB Georgian Room. The annual Martin Luther King Jr. Symposium begins at 3:30 p.m., Jan. 23, in Violette Hall 1000. The event will focus on insights and reflections from four panelists.

Three winter graduates were recognized at Truman’s General Honors Program medal ceremony in December. This marks the eighth year that the Phi Beta Kappa Association of Northeast Missouri has sponsored the award ceremony.

Sara Bartek, from Lincoln, Neb., received a bachelor of science degree in political science and was presented her medal by Cole Woodcox, associate professor of English.

Adnan Khan, from Islamabad, Pakistan, received a bachelor of arts degree and bachelor of science degree in business administration and was presented his medal by Jason Lin, professor of business administration.

Eric Norige, from Webster Groves, Mo., received a bachelor of arts degree in mathematics and computer science and a bachelor of science degree in computer science and was presented his medal by Michael Adams, associate professor of mathematics.

The medals, traditionally worn with the academic regalia during commencement, feature the lamp of learning hung from purple and white ribbons. Truman’s General Honors Program offers outstanding students the opportunity to select rigorous courses in the liberal arts and sciences component of their degree programs. The honor is awarded to graduating seniors who have completed five approved courses, with at least one from each of the four areas of mathematics, natural science, social science and humanities. They must achieve a grade point average of at least 3.5 in those courses.

Students who complete a single undergraduate major may not satisfy General Honors requirements with any course in their major field. All Truman State University students are eligible to pursue General Honors in Arts and Sciences by taking the courses designated by the respective disciplines as being courses whose successful completion by a non-major is especially noteworthy.
