New Music Festival Takes Place Oct. 30-31, Features Composer Mark Koval

The University Department of Music, Phi Mu Alpha Sinfonia, Sigma Alpha Iota and The Mostly Live Composers Society will host the 2008 Truman State New Music Festival, Oct. 30-31.

This year, the festival will feature guest composer Mark Koval, winner of the international 2008 Truman State-MACRO Composition Competition. Koval has received Emmy nominations for his musical scores for the animated children's series "Bobby's World" and "The Real Adventures of Jonny Quest." His music can also be heard on "Batman: The Animated Series" and in the motion picture "Love Bites."

Koval will speak to music classes, work with student composers in a master class and rehearse with Truman musicians.

Two concerts will be presented during the festival, each including performances of new music by Koval, as well as by Truman faculty, graduate students and other contemporary composers.

Koval's composition "Sound(s) and Fury"

will be premiered by the Truman Symphony Orchestra, under the direction of Sam McClure, associate professor of music, during the first concert at 7:30 p.m. Oct. 30 in the Ophelia Parrish Performance Hall. The work was specifically commissioned for the occasion by the University's chapters of Phi Mu Alpha Sinfonia and Sigma Alpha Iota. In addition to the premiere, a variety of new instrumental and choral music will be presented by Truman musicians, including Cantoria, the Chamber Choir and Wind Symphony.

Mark Koval

The Performance Hall will also be the site of the second concert from 1:30-3:30 p.m. Oct. 31. Chamber music by Truman composers, as well as music by Koval, will be performed.

Both concerts are free and open to the public and will feature discussions by Koval.

For more information about the festival, contact Warren Gooch, professor of music, at wgooch@truman.edu or 785.4429. Further information about Koval is available at <http://www.markkoyal.com>.

Marathon Training Offered as New Course

Students who enjoy running and want to participate in a marathon or half-marathon will now have an opportunity to train for one while receiving academic credit.

In the spring semester, the course ES 375, Section 02, Independent Study: Marathon Training will be offered for the first time. The purpose of the two-credit-hour course is to help students develop the strength and endurance to participate in a long-distance running event, and to foster an understanding of the importance of goal setting and the psychological aspects of competing in an endurance event.

Multiple aspects of long-distance running

will be addressed, including; training principles, the history of the marathon, physiology, injury prevention, sports nutrition, environmental adaptations, the level of preparation necessary to successfully complete a marathon, goal setting and evaluation performance.

The class will provide a unique opportunity to apply these principles in the actual running or walking of a marathon or half-marathon event for students who wish to participate. Completing the full or half-marathon does not determine the course grade. Questions can be directed to Jana Arabas at jarabas@truman.edu or Janet Gooch at jquinzer@truman.edu.

TruView Link Highlights Kirksville Events

Many Truman students often have the same question once they arrive on campus. "What is there to do in Kirksville, and how do I find out?" That is why the University has added a "Kirksville" link on TruView.

TruView is a student's one-stop campus portal, providing access to class schedules, grades, open courses, registration information and more. Students can also use TruView to check their e-mail and see University announcements.

Online versions of the Truman Today are also

readily available through TruView, and students can quickly access the University Master Calendar to see what events are happening on campus.

With the addition of the Kirksville link, TruView is now every student's source for things to do in the 'Ville.

Links to sites such as Kirksville Rocks, the Kirksville Arts Association, Downtown Cinema 8 and the Parks and Recreation Department, among others, will allow students to stay informed and always have something to do in Kirksville.

Gregory Jones, professor of music, (second from left) returned to the Greek Island of Corfu recently as a faculty member of The 6th Melos Brass International Ionian Summer Music Academy. Other trumpet faculty members were Chris Martin, principal trumpet of the Chicago Symphony, German trumpet soloist Reinhold Friedrich and Sokratis Anthis and Panayotis Kessararis of the Melos Brass. Students from America, Africa, England, Greece, Albania, Finland, Poland, Czech Republic, and other nations joined in performances and master classes that included the Canadian Brass and many other brass teachers during the first week of July 2008. Pictured left to right: Martin, Jones, Anthis, and Kessararis.

Staged Reading Presents 'West Moon Street'

Students from the Staged Readings, Performing Literature class will present the comedy "West Moon Street" at 6 p.m. Oct. 17 in the Magruder Hall Planetarium.

In the play, adapted from an Oscar Wilde short story, a young nobleman from Oxford learns that he is destined to commit a murder and believes it is his duty to get it over with before his upcoming marriage. Since his education hasn't provided him with the required skills, he flounders in comic style through a series of mishaps as he tries to

choose his victim.

Staged reading is a new course created under the theatre department's Advanced Studies and Projects. It is intended to improve student's work in a performance style that is being used more frequently. Upcoming staged reading performances include the dark comedy "Chamber Music" on Nov. 14 and "Picasso at the Lapin Agile," a comedy by Steve Martin, on Dec. 3. All performances will be in the planetarium and admission is free.
