INDEX AND DETOURS HONORED AT NATIONAL CONVENTION

Two Truman State University student publications were recently honored at the National College Media Convention in Kansas City, Mo.

The Index, Truman's student-produced newspaper, received second place in the Best of Show competition for four-year weekly broadsheet publications.

Detours, the student-produced travel magazine, was honored as a Pacemaker Award finalist.

The Pacemaker is the highest honor available to Associated Collegiate Press members and is considered one of the most prestigious awards in collegiate journalism. Both competitions involved publications from across the country and Canada.

Truman Recognized as a Top Producer of Fulbright Awards in Master's Category

Truman State University was featured in the Oct. 24 issue of "The Chronicle of Education" as a top producer of Fulbright awards for U.S. students among master's level institutions.

The article includes a list compiled by the Institute of International Education of "Top Producing" schools - those institutions in each Carnegie Classification that had the highest number of students who received Fulbright grants this year. Truman was determined a master's institution in 2005 by the Carnegie Foundation for the Advancement of Teaching. The four groups of institutions listed include research institutions, bachelor's institutions, master's institutions and other institutions. The "other" category represents specialized and unclassified institutions. A complete list of institutions is available at <http://us.fulbrightonline.org>.

In 2008-2009, Hannah Kay and Gregory Wisner were each awarded Fulbright scholarships from the U.S. Department of State and the J. William Fulbright Foreign Scholarship Board.

Kay, a 2008 Truman graduate from Springfield, Ill., received a U.S. student scholarship to Russia for teaching English as a foreign language.

Wisner, a 2007 Truman graduate from Springfield, Mo., received the same scholarship to teach English in Germany.

The Fulbright Program provides myriad opportunities to strengthen the global reach of a community of teachers and learners who will energize and internationalize institutions for years to come.

About 1,500 students and 1,300 scholars from the United States and abroad are studying and working on Fulbrights this academic year. Throughout its history, the Fulbright Program has allowed more than 108,000 Americans to study, teach or conduct research abroad, while more than 178,000 students, scholars and teachers from other countries have engaged in similar activities in the United States.

The program operates in more than 155 countries worldwide. For more information visit <http://www.cies.org/> or <http://fulbright.state.gov/>.

United Way Goal Achieved

With the help of the recent FoodFast effort, the Truman campus has achieved its goal of raising \$56,000 for the United Way of Adair County.

The FoodFast campaign allows students to donate "meals" through Sodexo, with the cost of the meal going to the United Way. Student advisers in the residence halls went door to door collecting donations during the campaign. This year, FoodFast raised a stunning

\$5,144.80.

Campaign co-chairs Brad Chambers and Debra Kerby said they were thankful to all those who contributed this year.

Although the campus community has reached 100 percent of the established goal, donations can still be made until Nov. 14 to Chambers in the Advancement Office. After that, donations can be made directly to the United Way at 304 S. Franklin.

Participants in Truman's United Way campaign celebrate the University meeting its goal last week. Pictured left to right: Nick Landon, Centennial Hall student adviser; Melinda Wood, retired staff chair; Brad Chambers, Truman drive co-chair; Adam Barbee, Ryle Hall student adviser; Justine Chorvat, West Campus Suites student adviser; and Emily Walker, student drive chair.
